

Дырявь меня клиньями птиц,

Камнем тяни ко дну.

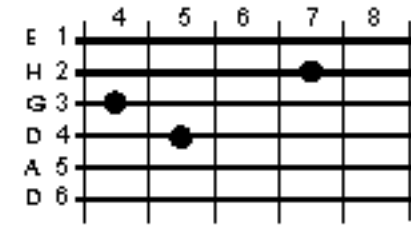

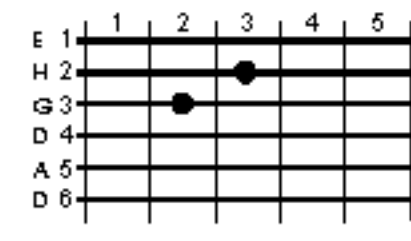

Я почую тебя за версту - и сорву тормоза.

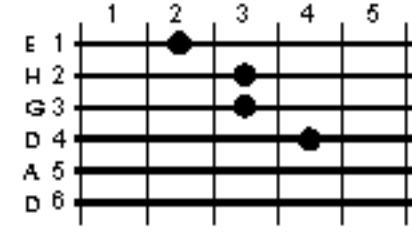

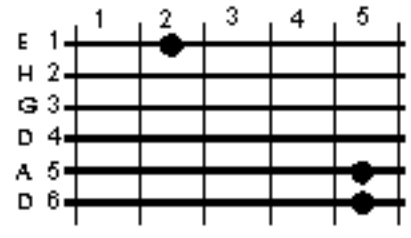

И пойдут под откос поезда,

А на плече расцветет тату.

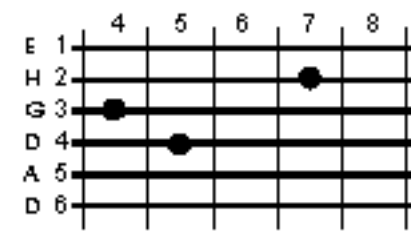

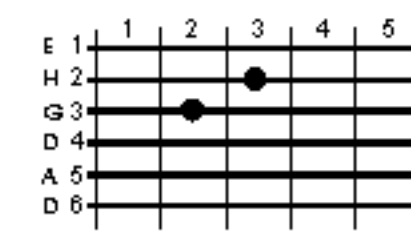

Я люблю тебя - по-французски "je t'aime".

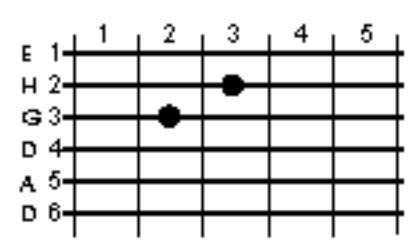

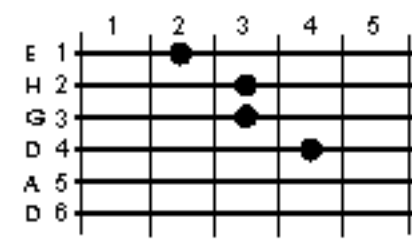

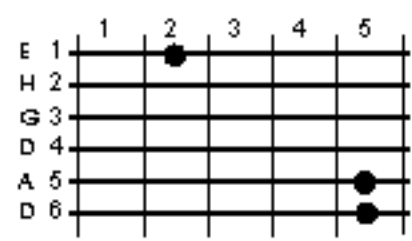

Гладь меня теплой ладонью

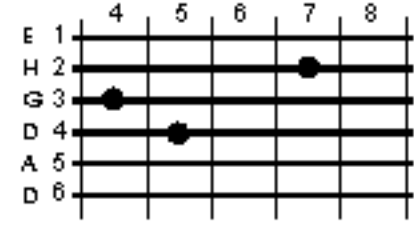

Против ветровочного метро,

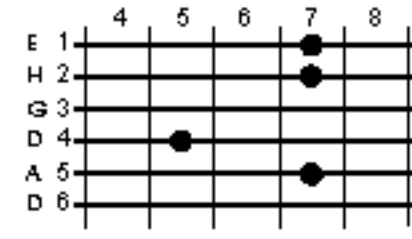

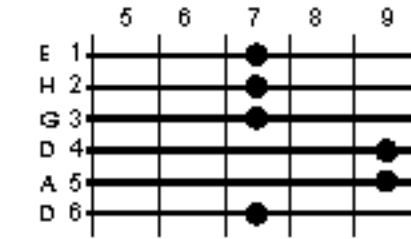

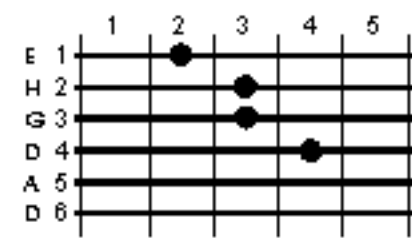

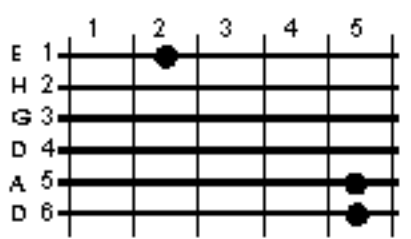

Когда-нибудь это мне надоест.

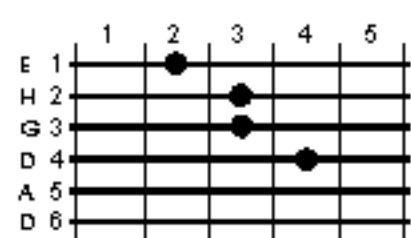

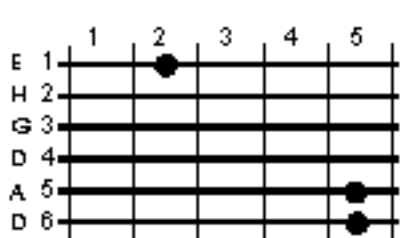

Впрочем, тоже неточности не лишено...

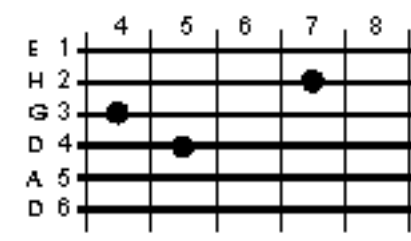

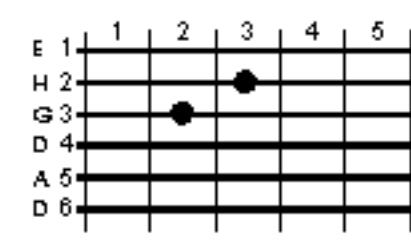

Плаваются диски,

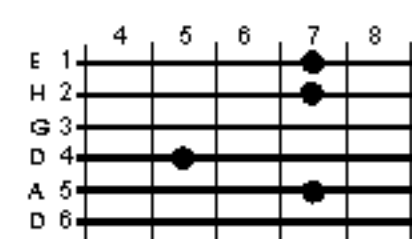

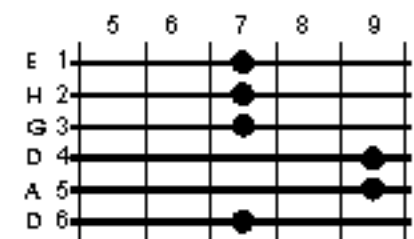

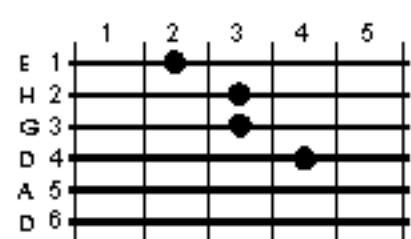

Кружится лето Над головой одной машинистки.

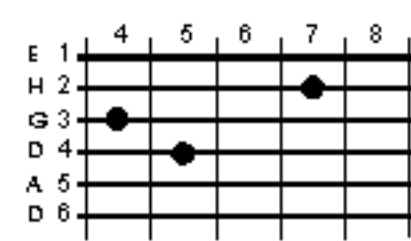

Слепым десятипальцевым методом...

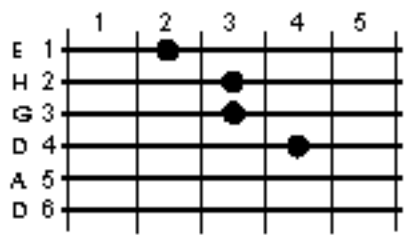

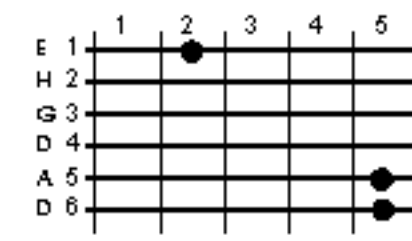

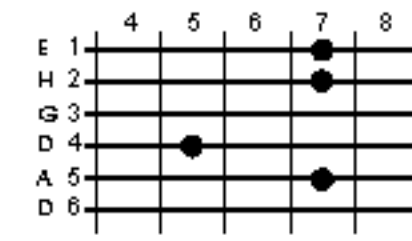

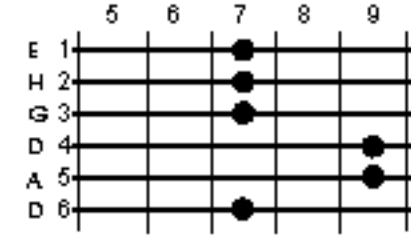

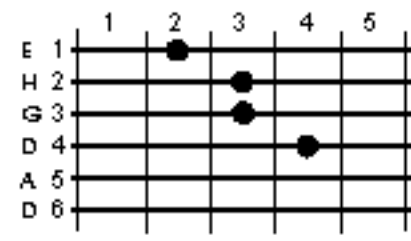

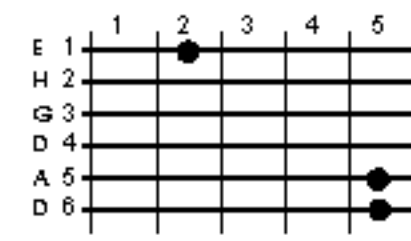

Разменяла на рубли

И пустила восвосяси доверчиво.

А он скучал, он курил,

Он хотел, чтобы все стало по-прежнему.
